Renee Andersen	Faculty member, English
Cynthia Johnson	Faculty member, Dental Health/ Hygiene
Jeanne McColl	Assistant Dean, Nurse Education
Catherine Poirier	Interim Dean, Learning Resources
Jason Stockford	Faculty member, Math
Lauren Webb	Interim Dean, BSTM

Agenda Item	Notes on Discussion
1. Vote on Revised SRI Questions	<p>Lauren Webb requested the following vote from the committee by email:</p> <p>Do you approve a pilot test of the attached list of SRI questions for use in the summer session MATH 0095 Math Emporium classes?</p> <p>The math department committee charged with the oversight of the emporium has proposed a list of revised SRI questions that its members would like to use for emporium based math classes because of its unique features. The Math Department has recently voted to approve these new questions. They would like to test these SRI questions over the summer so that the results from this pilot test could be used to inform whether these new questions should be added to the SRI going forward for Emporium math classes. If approved, Jason Stockford would bring a formal presentation of the results to the committee in the fall and ask for approval to use the questions on a regular basis.</p> <p>Votes in favor: 5 Abstentions: 1</p> <p>Motion to add questions to SRI approved.</p>
